PROFILE	Results-driven Technical Lead with 4+ years of experience in software development, specializing in frontend optimization and scalable solutions. Proficient in back-end technologies with a strong focus on micro-frontend architecture and delivering high-performance user interfaces. Adept at managing teams, fostering skill development, and driving innovation through proof of concepts (POCs).			
EMPLOYMENT HISTORY				
Mar 2024 — Present	technical Lead, easyeat		Delhi	
	<p>Lead a team of 5 developers, ensuring smooth task allocation and tracking progress toward project goals. Spearheaded major front-end optimizations, improving performance and user experience while reducing bundle size by 30%. Developed a POC for transitioning to a micro frontend architecture, enabling modular and scalable development for a large-scale application. Actively guided team members in upskilling through hands-on support, mentoring, and knowledge-sharing sessions.</p> <p>Key Achievements: - Successfully implemented a scalable micro frontend architecture for a high-traffic food court application. - Improved team productivity and project delivery timelines by 25%.</p>			
Jan 2023 — Mar 2024	Senior Full Stack Developer, easyeat		Delhi	
	<p>Set up food court systems with alerts and monitoring, ensuring real-time issue detection and resolution. Implemented comprehensive unit test cases, reducing application errors by 30%. Worked extensively with AWS services, including Lambda, to build and deploy scalable server-less solutions.. Designed and set up a server for Jitsu Event Manager, streamlining event data tracking and analytics.</p> <p>Key Achievements: Reduced page load time by 40%., Successfully developed a reusable component library, cutting development time for new features by 20%.</p>			
Mar 2021 — Jan 2023	fontend devloper, easyeat		Delhi	
	<p>Delivered high-quality, user-centric web applications using React and Angular. Worked closely with back-end teams to integrate REST APIs, ensuring seamless application functionality. Optimized web applications for maximum speed and scalability, addressing issues related to load times and responsiveness. Contributed to developing reusable components, enhancing code maintainability and consistency across projects.</p> <p>Key Achievements: - Reduced page load time by 40%. - Developed a reusable component library that reduced development time for new features by 20%.</p>			
Oct 2020 — Mar 2021	software Developer, accenture		Delhi	
	<ul style="list-style-type: none">Optimized database performance by creating and tuning stored procedures and SQL queries			
EDUCATION				
Aug 2016 — Aug 2020	B.TECH(IT), GGSIPU		Delhi	
SKILLS	React	Expert	Python	Skillful
	HTML & CSS	Expert	Git	Expert
	JavaScript	Expert	Node.js	Skillful
	Frontend Optimisation	Expert	DevOps	Skillful
	Leadership	Experienced	Nest js	Skillful
COURSES				
May 2024 — Sep 2025	Machine Learning and Ai, Learnbay
